SUMMARY

Aspiring Data Science and Software Developer, seeking a dynamic role to apply my analytical and programming skills. With hands on experience in Python and Java programming languages, I aim to contribute to cutting edge projects. I am dedicated to continuous learning and Eager to bring enthusiasm, dedication and fresh perspective to a collaborative team environment.

TECHNICAL SKILLS

- Programming Languages:** Python, Java.
- Tools and Frameworks:** Tableau, Excel, Spring Boot
- Data Base Management:** My SQL
- Machine Learning
- Exploratory Data Analysis

POWER SKILLS

- Optimistic problem solving
- Analytical and reasoning
- Motivational

INTERESTS

- Badminton
- Reading books
- Navigating medium online blogs.

EXTRA CURRICULAR ACTIVITIES

- Currently Working as content writer at developers community (12/2023 - Present)
- Organized events in NGO Meenakshi shiksha shamiti in part of my community development project (05/2022 - 07/2022)

INDUSTRIAL TRAINING

Student at Allsoft Solution by IBMCE

(May/2023 – July/2023)

- Built a ML Model that predicts the resale value of the car.
- Worked on core concepts of Data Analysis, Machine Learning.
- Worked on Big data analytics from IBM Skills build.

PROJECTS

- Car Price Predictor (06/2023 - 07/2023)
 - Domain: Python, Data Science, Machine Learning.
 - Achieved over 90% accuracy in prediction by R2metrics score.
- Exploratory Data Analysis of resale price of the car from Quickr dataset (10/2023 - 12/2023)
 - Domain: Python, Data Science
 - Applied EDA techniques and done 5 Hypothesis Tests.
 - Learnt in matplotlib, numpy, pandas, scikitlearn libraries.
- Message Encrypter and Decrypter (04/2023 - 05/2023)
 - Domain: Tkinter(GUI), python, AES, Base64
 - Given gui interface and this application encrypts and decrypts in both AES Level and Base level.
- Tic Tac Toe game and Quiz application (minor projects) (02/2023 - 04/2023)
 - Domain: python, JSON, Pygame libraries, tkinter
 - These projects are individual for academic purposes.
